IND-EX

INTRODUCTION TO IND-EX

IND-EX is a guide to articles and photographs in the local and regional editions of the

DURHAM MORNING HERALD
THE CHAPEL HILL HERALD
THE DURHAM SUN.

It is published in monthly issues and in an annual cumulated volume by the *Herald-Sun* Newspaper Library.

SCOPE OF IND-EX

Items concerning events, people and places in Durham, Chapel Hill and selected counties in Piedmont N.C. are included in *IND-EX*. National and international news are excluded with rare exception.

Editorials, features, reviews, photos, columns and articles by local news staff are included regardless of subject. Generally not included are syndicated columns, wire service features, marriage, birth and death announcements, legal notices and routine sports scores.

ORGANIZATION

IND-EX is divided into two sections: names of people and subjects. The name index is an alphabetical listing by last names of people prominently mentioned in the news. The subject index is an alphabetical listing of specific titles, words or concepts used in news articles or features.

Acronyms and initialisms precede words or phrases. Within word groups, commas precede characters:

"N.C., state employees" precedes "N.C. Arts Society."

Within word groups, numerals precede letters:

"Wilmington 10" precedes "Wilmington ABC Board."

In all other cases, numbers should be treated as if spelled out.

Hyphens are regarded as spaces, and apostrophes are ignored.

Following a name or subject heading is a list of the articles pertaining to that name or subject. For each, a headline is provided along with symbols identifying the name of the newspaper, edition, date, section, page, type of article, reporter by-line and type of illustration. Explanations for all symbols appear on the following page.

INDEXING DEPTH

Names of individuals are indexed when quoted heavily, the subject of a news story or feature, or noteworthy for some reason. Subject headings are assigned to each story based on important names, words or concepts that appear in the article or are implied by it. Whenever possible, subject headings are specific rather than general:

"AZT" not "Drugs."

When necessary, sub-headings are used to make broad headings more specific:

"Durham City Council, budget"

"Fires, Orange County"

"Granville County Schools, computers"

"N.C. General Assembly, legislators."

Cross-references are used to guide the user to the appropriate headings. "See" references point from invalid headings to correct ones. "See-also" references indicate related headings.
